OECD support for the CBA project

The Central Anti-Corruption Bureau, in connection with efforts to change the asset declaration system - under the auspices of the OECD - is starting work on a request for technical support.

Cooperation of OECD

In connection with the video conference on January 15, 2025. - after presenting the activities implemented by the CBA in the area of increasing transparency in public life and, consequently, strengthening anti-corruption prevention, the OECD confirmed the legitimacy of the Technical Support Facility. In this regard, it was agreed to implement a procedure for preparing a request for technical support for the CBA project, with the OECD as the contractor.
